

How to Use the Maintenance, Repair & Operations (MRO) Products, Supplies and Equipment Statewide Contract (FAC76)

Contract #: FAC76	Contract Duration: 05/01/2012 to 04/30/16
MMARS #: FAC76*	Options to renew: none remaining, contract extended through final expiration date of 4/30/16
Contract Manager:	Dana Cerrito - 617-720-3328 Dana.Cerrito@state.ma.us
This contract contains:	Small Business Purchasing Program (SBPP), Supplier Diversity Office SDO Contractors, and Environmentally Preferable Products (EPP)
Last change date:	6/10/2014

Contract Summary

This contract covers a wide range of products, supplies and equipment necessary to ensure proper function of mechanical, plumbing and electrical systems of a building or facility. The contract has been divided into the following categories:

Cat #	Category Name
1	Walk-In Building Materials and Supplies
2	Electrical and Lighting Products and Supplies
3	Industrial and Commercial Products and Supplies
4	Plumbing and Heating Products and Supplies
5	HVAC and Refrigeration Products and Supplies
6	LED Roadway and Outdoor Area Lighting
7	Specialty Products

Category 7 includes the following product groups as subcategories:

- A. Compact Fluorescent and LED Lighting
- B. Dimensional Plastic Lumber, Landscape Timbers, Fencing, Railing, and Decking
- C. Sustainably Grown and Harvested Wood
- D. Sustainable Roofing Materials
- E. Reprocessed Paint
- F. Non-Chloride De-icing Chemicals
- G. Other Environmentally Preferable MRO Products

Important

Many of the FAC76 Contractors are capable of supplying products **outside** of the scope of this contract. These products may be:

- Available on other statewide contracts (e.g. office supplies, medical equipment, janitorial cleaning chemicals, etc.),
- Prohibited by an executive order (e.g. incandescent light bulbs), or

- Must be purchased through a separate solicitation (e.g. stationary generators).

Eligible Entities must exercise sound judgment and adhere to the intent of this statewide contract. Appendix A of this document contains the full list of product groups excluded from this contract. Eligible Entities must also report instances where Contractors propose to sell such products by notifying the Issuer at Dana.Cerrito@state.ma.us (please attach any emails or quotes from the Contractor).

Benefits and Cost Savings

- Covers a broad array of products.
- Competitive pricing.
- Opportunities to negotiate.
- Low special order markups.
- Wide selection of EPPs.
- Savings opportunities in specific categories.

Who Can Use This Contract?

Applicable Procurement Law: MGL c. 7, § 22; c. 30, § 51, § 52; 801 CMR 21.00

Eligible Entities:

1. Cities, towns, districts, counties and other political subdivisions
2. Executive, Legislative and Judicial Branches, including all Departments and elected offices therein;
3. Independent public authorities, commissions and quasi-public agencies
4. Local public libraries, public school districts and charter schools;
5. Public Hospitals, owned by the Commonwealth;
6. Public institutions of high education
7. Public purchasing cooperatives;
8. Non-profit, UFR-certified organizations that are doing business with the Commonwealth;
9. Other states and territories with no prior approval by the State Purchasing Agent required; and
10. Other entities when designated in writing by the State Purchasing Agent.

Pricing and Purchase Options

Purchase Options: Most purchases made through this contract will be direct, outright purchases. Limited leasing or rental of certain items is allowed, and details are available in Appendix A.

Statewide and Regional Contractors

This contract includes both statewide and regional awards. While region numbers are provided for regional contractors in Appendix B, it should be noted that the contract allows regional contractors to cover the territory normally covered by their company rather than limit them to a uniform region structure. For this reason, Eligible Entities should send quote requests to all contractors within a category.

Pricing and Buying Details

Referencing the Statewide Contract. In order to ensure that you receive all the benefits and savings associated with the statewide contract, please **always reference the statewide contract** and the document number (FAC76) when opening an account or placing an order with a contract vendor.

Price structure. Contract pricing for products is based on a discount off a price list specified for each category with limited exceptions specifically identified in each price file. Contract discounts and other pricing published under the contract represents “ceiling” or “not-to-exceed” pricing, and any published rebates are minimum rebates. It is therefore recommended that Eligible Entities obtain competitive quotes for their purchases.

Prices include delivery except in the following cases:

- **Special Orders:** Any item listed in a contractor’s online or paper catalog or price list with a commercial price or MSRP is not considered a special order and must have FOB destination pricing on the contract. The FOB destination price will be calculated based on the list price or MSRP and the discount percentage for the item category listed in the contractor’s price file on COMMBUYS. This rule will apply to all items, whether in stock or not. Special orders are defined as those for products not listed in the contractor’s online or paper catalog or price list, and for which the contractor does not have a commercial price. By definition, such orders will be specially sourced by the contractor for the Eligible Entity on an individual basis. For those items, the contract price will be calculated based on the item cost (the price charged by the seller of the item), plus the special order markup % listed in the contractor’s price file on COMMBUYS, plus any delivery charges. See “Quotes,” “Invoicing and Cost Reconciliation” and “Returned Goods Policy” for additional information on special orders.
- **Category 1, Home Depot:** A flat rate of \$59 will apply to deliveries. Truckload-size orders may qualify for free delivery. Oversize orders requiring special trucks and special orders may be subject to additional delivery charges, which will be identified and negotiated with Eligible Entities prior to any transaction.
- **Category 1, Lowe’s:** Deliveries for orders over \$500.00 within 20 miles are free. The delivery charge is \$20.00 for all deliveries up to \$500.00 and less than 20 miles. For deliveries over 20 miles, an additional \$1.00 charge per mile one way will apply. All charges are one-way (no charge for the mileage back to the store).

No surcharges. No transportation, fuel, energy, insurance or any other surcharges will be allowed throughout the duration of the contract(s).

No pre-payments. Contractor must not request any form of pre-payments by the Eligible Entity before the service is rendered. For special projects implemented in phases, by mutual agreement of the Eligible Entity and the Contractor, invoices must be issued after each phase is completed to the Eligible Entity’s satisfaction.

Price files. Price Files (separate files for each award category) are posted for each contractor as attachments to their contract records on [COMMBUYS](#). Note that each price files includes two or more worksheets.

Walk-in Sales, Product Pickup and Delivery

This contract separates walk-in sales (i.e. retail sales without previously placed order) from product pickup at a retail location (i.e. collecting the product after the order has been placed and made available by the contractor to be collected at their location). Walk-in sales will be available in Category 1 only. In other categories, orders must be placed with the contractor in advance, even if a product pickup option is available.

Contractors are required to deliver an order within two days of it being placed, but in most cases, next-day product delivery will be available for in-stock items. See the “Cover Sheet” of each contractor’s Price File for each contractor and category for delivery timeframes.

If an item is out of stock or requires a special order, the Contractor must make every effort to supply the ordered item within the original delivery timeframe. If such arrangements cannot be made, the Contractor must inform the Eligible Entity about the estimated delivery time frame and make every effort to have the item delivered as soon as possible.

Late deliveries or deliveries that cannot be made within the above guidelines may be canceled at no cost to the Commonwealth. As an example, an Eligible Entity may refuse or cancel delivery of a product if it cannot be delivered by the last day of the fiscal year when it was ordered.

Quotes

While Eligible Entities are not required to obtain multiple quotes under this contract, OSD strongly encourages multiple quotes for orders with value over \$2,500. It is recommended that **all** contractors within each category, statewide and regional, be sent requests for quote.

Contractors must respond to requests for quotation within one business day and provide quotations within three business days from the original request unless otherwise negotiated with the Eligible Entity. Quotes must be provided free of charge, must be valid for no less than two business days, and should include expiration dates or the number of days the quotes are valid starting from the date of issuance.

Quotes must be itemized to reflect contract price for each item. When contract price is calculated using a markup over product cost, the quote must include product cost, markup percentage equal to or lower to the one agreed upon for the product category, the contract product price, and any other charges. If an item cannot be delivered within the time frame required by this contract, the quote must contain the estimated delivery time frame for delivering the item.

In the rare cases where the contract allows for shipping or delivery charges to be separated from the product price, those charges must be included in the quote and may not be marked up by more than 1%. Upon delivery or at the time of billing, shipping / delivery cost documentation must be provided at the Eligible Entity’s request.

Quotes for special order items must comply with the requirements above and include any manufacturer restocking fees, subject to RFR Section 3.1.3, Returned Goods Policy, as well as any essential information on the manufacturer’s product return policy, including but not limited to the product time frame.

Eligible Entities may issue quotes that include partial order delivery and payment. It is the Contractor’s responsibility to reach an agreement with the Eligible Entity regarding the period over which the full order will be delivered at the price quoted. In the absence of such an agreement, this period will be equal to one year from the date the Contractor issued the quote. If the Eligible

Entity has not taken delivery of the full order at the end of the agreed-upon period or by the anniversary of the date the original quote was issued, the Contractor may:

- Make a reasonable adjustment to the product price and invoice for future deliveries at the new price,
- Cancel the quote and, in the case of special orders, invoice the Eligible Entity for returning the remaining product quantity to the manufacturer as outlined in RFR Section 3.1.3, Returned Goods Policy. If it is not possible to return the product to the manufacturer, the Contractor may charge the Eligible Entity a restocking fee not to exceed 50% of the extended price of the remaining product quantity at the originally quoted price.

Negotiation

All pricing on this contract is “ceiling” or “not-to-exceed” pricing. Eligible Entities have the right to negotiate pricing or other aspects of purchases within the scope of the contract, including delivery charges (if any), training, warranty and other provisions. Eligible Entities may negotiate with winners of the quotation process to further enhance the value of the deal.

Invoicing/Cost Reconciliation

Contractors' invoices must be itemized to reflect contract pricing for each item. When contract price is calculated using a markup over product cost, the invoice must include product cost, markup percentage equal to or lower to the one agreed upon for the product category, the contract product price, and any other charges.

The following general principles must apply:

- At the time of shipment, the Eligible Entity must be aware of any possible cost changes. The Eligible Entity will have the right not to pay any charges they did not agree to.
- If the list price changes between the time of quotation and order, the final invoice must reflect the changed list price, contract discount, and updated contract product price. If the list price changes after the order has been placed, the Eligible Entities will accept no changes to the quoted product prices.
- Subject to RFR Section 3.1.3, Returned Goods Policy, Contractors may pass manufacturer restocking fees, and third-party delivery or shipping charges to and from the Contractor's or the Eligible Entity's facility, to the Eligible Entity. Those charges will not be subject to the State Contract Administration fee and cannot be marked up.

Returned Goods Policy

The Bidder's returned goods policy must allow for the return of unused products normally stocked by the Contractor, within 90 days of delivery, free of charge including transportation back to the Contractor's facility, in cases when:

- The wrong item was ordered,
- Product that was not ordered was delivered;
- Unopened product is being returned in the same condition as received for any reason;
- Product performance, appearance or other attributes do not meet the Eligible Entity's requirements.

For special order items ordered at the request of the Eligible Entity, the manufacturer's returned goods policy, including product return deadline, will apply. Contractors are required to supply the

manufacturer's written return policy to the Eligible Entity at the time of product delivery. If product return is requested, Contractors will be allowed to pass the manufacturer's restocking fee, and any third-party shipping or delivery charges for transporting the item to and from the Contractor's or Eligible Entity's facility, to the Eligible Entity. These charges may not be marked up and will not be subject to the State Contract Administration Fee. The Eligible Entity must be provided documentation of the restocking charge and shipping or delivery charges upon their request. If the wrong products are ordered based on the Contractor's recommendation, no charge will be assessed to the Eligible Entity regardless of whether the product was special ordered or not.

“Installed Product” Sales

While not available for the vast majority of the products covered by this contract, it provides for the sale of several specific product groups with the installation service included. Product groups covered by this service are included in Appendix A. Such sales may not include \$10,000 per project and must comply with the following additional specifications. The intent of this purchase option is not to replace the existing statewide contracts for tradesperson services, but to provide a cost-effective convenience service for a limited number of products. Performance of work outside the product groups designated by the contract shall be subject to the same penalties as the sale of products excluded from the contract.

Construction Law Compliance. All work performed under this contract must comply with the Massachusetts construction laws. No quote for installed product shall exceed \$10,000. Eligible Entities will be required to issue separate solicitations outside of Statewide Contract FAC76 for any projects estimated to cost over \$10,000.

Prevailing Wage. All or part of the service(s) available under this RFR and resulting contracts may require the payment of prevailing wages pursuant to G.L. c. 149, Sections 26 through 27D (construction); Section 27F (trucks, vehicles and other equipment performing public works functions (non-construction); Section 27G (moving office furniture) and 27H (state cleaning contracts). The awarding authority has a legal obligation to request a prevailing wage schedule from the Department of Labor Standards (DLS) at www.mass.gov/dols. If this is a statewide contract or department contract that can be used by other eligible public entities, then any such eligible public entity that uses the contract will be considered the “awarding authority” and must also request a prevailing wage schedule at the time of the engagement of the contractor for specific services. In addition, bidders and proposers must agree to comply with the Prevailing Wage Law, as administered by the DLS. Questions regarding the Prevailing Wage Law may be answered by accessing the [DLS website](#) at or by calling the DLS Prevailing Wage Program at (617) 626-6953.

Contractor Licenses. The Contractor and its personnel performing work under this contract must possess all the necessary licenses and qualifications required to perform the work required under this contract.

Safety Policies and Personal Protective Equipment. The Contractor must ensure that all parties involved in supplying and installing products under this contract observe the applicable safety policies and are trained on safe work practices, job hazards, and applicable Eligible Entity standard operating procedures.

The Contractor is responsible for ensuring the safety of their staff by providing the necessary Personal Protective Equipment (PPE). Whenever required, Contractor staff must wear and have PPE in their possession.

Purchase of Construction Materials without Labor

Some purchases under this contract may fall into the category of Construction Materials without Labor Procurements governed by MGL Chapter 30 Section 39M. To determine whether to use the statewide contract or issue your own procurement under Chapter 30 Section 39M, please follow the following guidelines:

- **The statewide contract should be used if the products are being purchased and/or stocked for:**
 - Use by in-house staff (i.e. no hired labor is used).
 - Multiple projects where hired labor may be used, if the purchase does not limit the pool of installers or other trades persons that can be involved (i.e. the brand of the product being purchased does not limit the pool of installers only to those who are certified by the brand manufacturer). Installation labor must be procured through a separate solicitation in accordance with applicable construction laws.

- **The contract may be used (but is not required) for projects with total estimated value of less than \$10,000 in cases of:**
 - A single construction / installation project by a hired installer.
 - Multiple projects where hired labor may be used, of the purchase limits the pool of installers or other trades persons that may be involved (i.e. where the installers are required to be “manufacturer certified,” etc.).

Summary of Where to Obtain Important Contract Information in COMMBUYS

This contract has been set up as a zero dollar line item catalog in COMMBUYS.

Each vendor has been assigned a unique Master Blanket Purchase Order. Vendor price lists are located in the attachments tab on each Master Blanket Purchase Order.

Each vendor has a catalog line for each contract category awarded.

How to place an order

Once a product and price is determined, the ordering process is as follows:

- Initiate a new requisition
- Search for an item (Use FAC76) in the description
- Select the vendor you will be placing an order with
- Select the appropriate catalog line
- Enter the total price
- Attach the vendor quote and/or a detailed order summary

- Submit for approval

Some FAC76 contractors offer punchout catalogs, which can be accessed by clicking the cart icon in the upper right of the screen. Punchout orders will automatically apply the discount stated on the price list.

Where to Find complete FAC76 contract information on COMMBUYS

If full statewide contracts details are required please refer to FAC76 files listed under the Conversion Vendor “**vCurrent**” link. This link provides the entire detailed information as it relates to the statewide contract RFR, award information and specifications.

Appendix A, Summary of FAC76 Categories and Specifications

Products Excluded from FAC76

The sale of the following product groups is prohibited for all Contractors under this contract because they are covered by other statewide contracts:

Excluded from FAC76	Should be Purchased from
Audio, video and studio production and presentation equipment;	OFF30
Body armor vests;	LAW14
Bottled water;	GRO26
Clothing, uniforms, footwear, accessories and hygiene supplies that are not personal protective equipment or safety supplies;	CLT07
Commercial / institutional kitchen equipment;	GRO29
Foodservice supplies, including disposable and biodegradable plates, cutlery and other items;	GRO29
Photocopiers, fax machines, printers, multifunction devices and other imaging equipment and supplies;	OFF32
IT Hardware, such as desktop, laptops, tablets, servers and storage;	ITC44
Janitorial chemicals and equipment*	FAC59
Landscaping and Outdoor Application Products, except items available in stock in Category 1 stores on FAC76.	FAC66 (current contract) FAC79 (to be awarded in 2013)
Live animals;	No statewide contract
Office, art and school supplies;	OFF35 (Art and School Supplies) OFF28 (Office Supplies)
Playground equipment and structures;	No statewide contract FAC79 (to be awarded in 2013)
Pharmaceuticals, laboratory and medical commodities, except personal protection equipment and other safety products;	FIR03 (EMT Supplies) HSP33 (Medical Commodities)
Security surveillance and access control systems;	FAC64
Passenger and utility vehicles;	OVM05 (current contract) OVM10 (to be awarded in late

Excluded from FAC76	Should be Purchased from
	2012)
Professional-grade two-way radio systems, equipment and services, including but not limited to trunking and Project 25, conventional radio systems, marine radios, public safety paging systems, fixed mobile data and automatic vehicle location systems, and other similar equipment;	ITT40
Tractors, lawn and ground and farm equipment over 30 hp;	FAC71
Vehicle parts and tires;	VEH89 (Vehicle Parts) VEH83 (Tires)
Weapons, ammunition and related products.	LAW09

* See information on “Janitorial and Related Products” below.

Janitorial and Related Products

This contracts overlaps with the statewide contract for Environmentally Preferable Cleaning Products, FAC59. The following

- **Cleaning Chemicals.** Commercial / institutional cleaning chemicals (i.e. general purpose, glass, toilet, carpet cleaners, floor finish and floor finish remover, etc.) are not available on FAC76 and must be purchased from FAC59. Industrial cleaning products (i.e. degreasers, parts washers, etc.) are available from FAC76.
- **Cleaning Equipment (e.g. floor burnishers, washers, vacuums, etc.).** These products are not available from FAC76 and must be purchased from FAC59.
- **Cleaning Supplies (e.g. mop buckets, spray bottles, cleaning cloths, etc.).** These products should be purchased from FAC59, and FAC76 (Categories 1 and 3) should only be used to procure items not available on FAC59.
- **Dishwasher Detergents.** These products should be purchased from FAC59, and FAC76 (Categories 1 and 3) should only be used to procure items not available on FAC59.
- **Disinfectants.** These products should be purchased from FAC59, and FAC76 (Categories 1 and 3) should only be used to procure items not available on FAC59.
- **Laundry Detergents.** These products should be purchased from FAC59, and FAC76 (Categories 1 and 3) should only be used to procure items not available on FAC59.
- **Paper Towels.** These products are not available from FAC76 and must be purchased from FAC59.
- **Toilet Tissue.** These products are not available from FAC76 and must be purchased from FAC59.
- **Trash Liners.** These products are not available from FAC76 and must be purchased from FAC59.

Guidance on Other Product Groups

The following list addresses questions regarding specific products asked by Eligible Entities:

- **Batteries.** Alkaline and rechargeable batteries are available in all FAC76 categories.
- **Emergency Medical Technician (EMT) Supplies.** EMT supplies are not available on FAC76 and must be purchased from FIR03 or medical commodity contracts.
- **Generators.** Portable generators of all sizes are available on FAC76. Generators requiring installation are not available and must be procured through a separate solicitation.
- **Personal care items and kits.** These products are not available from FAC76 and must be purchased from CLT07.
- **Recycling Containers.** Desk-side and other trash containers are available on FAC76 (Categories 1 or 3). Eligible Entities should use FAC61 designated DEP for wheeled carts, compost bins, roll-offs and other larger containers.
- **Rentals.** Equipment rental is limited to equipment available in stores for FAC76 Category 1, and to portable generators for FAC76 Category 3.
- **Trash Containers.** Desk-side and other trash containers are available on FAC76 (Categories 1 or 3). Eligible Entities should use FAC61 designated DEP for wheeled carts, compost bins, roll-offs and other larger containers.

Categories and Specifications (Appendix A, continued)

This contract is divided into categories, each of which includes several product types. The table below defines, for each contract category, required product types as well as product types that are explicitly excluded. Contractors are allowed to sell products outside the required product types for their category as long as all of the following criteria are met: (a) the product falls into the general scope of the contract, (b) the product is related to the category in which the Contractor was awarded, and (c) the product is not specifically excluded in this document.

	Category 1 Walk-In Building Materials and Supplies	Category 2 Electrical and Lighting Products and Supplies	Category 3 Industrial and Commercial Products and Supplies	Category 4 Plumbing and Heating Products and Supplies	Category 5 HVAC and Refrigeration Products and Supplies	Category 6 LED Roadway and Outdoor Area Lighting	Category 7 Specialty Products
