Elderly/Disabled Development Descriptions

For Your Information:

- In order to qualify for federally assisted Elderly/Disabled housing, the head or co-head must be 62 years of age or older, or handicapped/disabled.
- **In order to qualify for our three State assisted Elderly/Disabled sites: Basilica, Franklin Field, Msgr. Powers, the head or co-head must be 60 years of age or older or handicapped/disabled.** Pursuant to State Law, in each of these three State assisted complexes, only 13.5% of the units available for occupancy can be occupied by households whose head is a non-elderly, handicapped/disabled person and 86.5% of the units are available, “**Designated**” for elderly who are 60 years of age or older. Consequently, handicapped/disabled applicants will have a much longer wait for placement in these three State assisted developments than applicants who are 60 years of age or older.
- The Waiting List for 2 bedroom units is very long at all Elderly/Disabled developments.
- In addition to the developments that have hot lunch and/or health care services on-site, Meals on Wheels are available at many of these developments.
- Most of the developments that do not have on-site health care do provide blood pressure screening and sight and hearing tests on a regular basis as well as a podiatrist. Shopping trips are also available to the residents in many of these locations.
- Designated Housing means that Elderly applicants 62 years of age or older will have preference over the applicants under 62 years of age at the Development(s) indicating “**YES**” under that column.
- Franklin Field Elderly/Disabled Grandparents Housing Program is a State Assisted program for grandparents with legal custody of their grandchildren, maximum two of same gender.
- All developments have access to social services.

Note: For complete descriptions of each development and additional information on the application process please visit the BHA online at www.bostonhousing.org
